DETAILED ACTION

Allowable Subject Matter

1. Claims 6-9,12-15,17-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims 6-9 is the inclusion of the following limitations:
'sending a system management interrupt signal from said South-bridge chipset to said central processing unit, thereby triggering a debugging tool program; executing said debugging tool program to pop out a debugging operation window upon said central processing unit entering a system management mode; selecting, in said debugging operation window, and executing at least one debugging item; setting a trap address for said debugging operation window'.

The primary reason for the allowance of claims 12-15,17-19 is the inclusion of the following limitations: 'processing unit, said South-bridge chipset including a system management interrupt pin for sending system management interrupt signal to said central processing unit, and a plurality of general purpose input/output pins for being triggered; a debugging operation window having a predetermining trap address'.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
